

2023 AWMA Membership Report 11/19/23 - 441 members in good standing.

11/19/23- 138 scorebooks issued since Jan 1st, 2023.

AWMA processed 441 memberships as of 11/19 this year, about 30 members more than last year around the same time according to the 2022 report. We also processed 138 scorebooks since January 1st. This is an increase of 31 scorebooks since last year I processed 107 from Jan 1st, 2022- October 31st, 2022.

Goals for the up coming year should involve automatic data entry on jot forms, something that will dramatically reduce the membership chair's time commitment. As we continue to grow, we will see fatigue on the volunteer's part if some of the more time consuming elements aren't modernized for the increase growth and therefor work load. With higher member numbers, renewal time will be particularly time consuming and require the volunteer to focus mostly on that for 1-2 months. I highly recommend providing aid to the volunteer during that time as I don't believe the time commitment is acceptable to ask of a volunteer.
